

ThinkSystem NE25720 RackSwitch

ONIE 25GbE / 100GbE aggregation leaf switch

Better Together

The Lenovo ThinkSystem NE25720 RackSwitch is part of the Lenovo Top of Rack (ToR) RackSwitch family.

Sales and Service is coordinated with Lenovo and the ONIE NOS provider working together to deliver upfront planning and long-term world-class product support to keep your data center running smoothly.

Disaggregated Data Center Networking

Use your preferred network operating system and Lenovo switches with features that include:

- A high-performance leaf aggregation for large-volume applications including Big Data, hyperconverged, and HPC solutions.
- Open Network Installation Environment (ONIE) specific models from Lenovo, delivering the additional flexibility of packaging for third-party operating systems that complement centralized data center cloud infrastructures and management.
- Option to purchase Cumulus Linux, a leading stand-alone third-party switch operating system, or supply your own Cumulus software. Lenovo offers the NE25720 and the Cumulus option today with other ONIE network operating system options planned.

Low TCO

The NE25720 is a low cost-of-ownership ONIE switch for high-end 25GbE data center applications. It offers:

- Pricing that aligns with the branded white (brite) box switch marketplace
- A 3-year hardware warranty
- Low power consumption to minimize operating expenses
