

# Lenovo ThinkSystem ST250 V2

Enterprise server power for your  
growing business

## Enterprise Power

The Lenovo ThinkSystem ST250 V2 is a robust, single-socket, easily managed, rackable tower server for the expanding businesses.

Providing enterprise-level server power with the next-generation Intel® Xeon® E-2300 Processor, the ThinkSystem ST250 V2 enables up to 8 cores and a max. 17% performance increase over the prior generation. It offers a wide range of storage options and seamless integration with Lenovo's XClarity management system.

ThinkSystem ST250 V2 supports several workloads for enterprise business application and is ideal for managing IT Infrastructure, near-side data backup, and Edge Computing.

## Enterprise Flexibility and Manageability

The ThinkSystem ST250 V2 features a highly flexible and easy to manage design that deploys server performance where it's needed and adapts as requirements change over time. Expand storage configurations with up to 16x 2.5-inch hot-swappable HDDs/SSDs, and two internal M.2 modules, while protecting data with various RAID options.

With GPU support, multiple PCIe slots, and lightning quick TruDDR4 memory, enhanced performance and connectivity comes standard with the ThinkSystem ST250 V2. Lenovo XClarity software provides easy-to-use systems management and dramatically reduces provisioning time, while an array of XClarity integrators allow utilization of XClarity through external IT applications to streamline IT management and contain costs.

## Designed for Remote Office Use

The ThinkSystem ST250 V2 is engineered for remote office / branch office and retail use. It is designed for environments with minimal IT support. The compact footprint and office-quiet cooling system enables the server for low-profile use.

Dual 550W AC power supplies result in redundancy for critical workload reliability. These components increase server uptime, workplace productivity, and data security. The ideal solution for an environment without dedicated on-site data center space or IT support staff.
