

Lenovo ThinkSystem ST50 V2

Your powerful, compact, and
affordable first server

Powerful and High Value

Your business is growing and so is your data. Increasing workloads demand professional-level performance and the ThinkSystem ST50 V2 is ready to deliver.

Ideal for expanding businesses, remote/branch offices, retail locations and home applications, the Lenovo ThinkSystem ST50 V2 the improved operation of the latest Intel® Xeon® E-2300 Processor offering professional-level capabilities at an affordable price-point. Giving you the productivity of a server, yet high value versus a workstation.

Flexible

With support for three PCIe slots with support of single NVIDIA GPU, and various high bandwidth network adapters along with an array of compatible storage drives. The ST50 V2 adds value and flexibility for any growing business. It can be scaled to fit your changing needs, provides high reliability, and uses common components to reduce costs.

Lenovo's XClarity Provisioning Manager Lite enables easy setup and firmware upgrades while Intel® Active Management Technology (AMT) saves time and reduces costs by monitoring system health and preventing data disruption.

Energy-efficient, quiet, yet powerful

The ST50 V2's compact size, flexible mounting options, and whisper-quiet acoustics allow it to be placed in an office environment without disruption.

It's energy-efficient with a TDP of no more than 95W and supports up to 8C performance. Providing optimal performance for increased productivity and energy cost-savings.
