

Lenovo Product Carbon Footprint and ECO Declarations

Article

A **Product Carbon Footprint (PCF)** information sheet looks at the environmental impact of an IT product. Based on the Product Attribute to Impact Algorithm (PAIA), it's a streamlined life cycle assessment that includes manufacturing, transportation, use, and disposal.

For more information on PCF, read the document [Lenovo's Product Carbon Footprint Strategy](#).

An **ECO Declaration**, also known as an Environmental Data Sheet, provides environmental information on IT products covering material use, energy efficiency, acoustics, packaging, disassembly, and recycling. They are available for all our products and follow the ECMA 370 standard, which has been developed in accordance with international standards and industry best practices.

View Lenovo's [Company ECO Declaration Profile](#) (ECMA-370 Annex A).

Downloading the documents

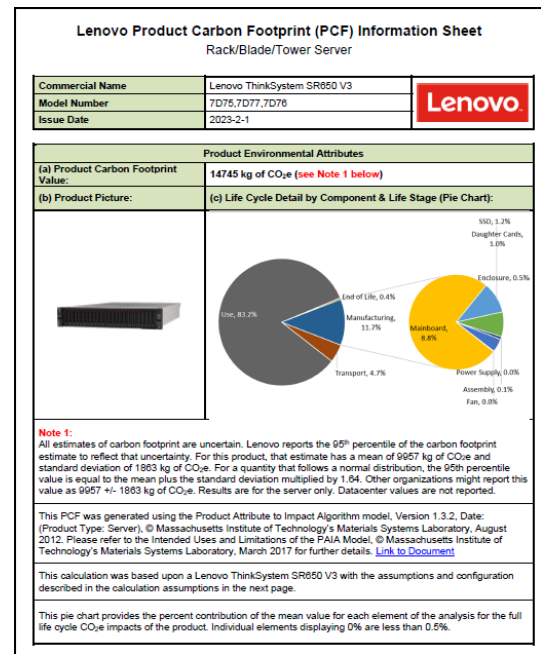

To view the ECO declarations and PCF information sheets for Lenovo servers and storage:

1. Go to the Lenovo Eco Declaration Compliance page <https://www.lenovo.com/us/en/compliance/eco-declaration/>
2. Scroll down and click the **Servers & Storage** tab
3. Browse or use Ctrl-F to search for the server you are looking for by name
